

**RPA ENERGY, INC. d/b/a Green Choice Energy  
Residential Renewable Energy  
Product Disclosure Label**

Green Choice Energy's Residential Renewable Product is a Renewable Energy Credit (REC) matched electricity product for its customers in the State of Illinois

Green Choice Energy's Residential Renewable Product matches 100% of a consumers total billed electricity consumption with the purchase of renewable energy credits. Green Choice Energy purchases and retires these RECs in addition to, and over and above, the power or renewable energy credits purchased, or the alternative compliance payments made, to satisfy the renewable portfolio standard requirements applicable under Section 16-115D of the Public Utilities Act. In 2021 the following renewable resources were used to match our consumers billed consumption in the State of Illinois.

Certified Source	Historical Year	Generation Location	Percentage	Current year offering <sup>1</sup>	Generation Location	Percentage
Hydro	2021	North Carolina	16%	2022	North Carolina	16%
Hydro	2021	California	84%	2022	California	84%
Total Matched Renewable Energy			100%			100%

Please contact Green Choice Energy at 1-800-685-0960 for specific information regarding this renewable product.

<sup>1</sup> The information in this column reflects REC sources that are currently under contract to be procured. Actual totals may vary due to resource availability.
